Dynamics 365 Developer

Recruitment to our client based in Stockholm

Apply

Apply

Are you an experienced Dynamics 365 Developer ready to take your career to the next level? Join our passionate team of CRM specialists working on exciting, high-impact projects. Here, you'll have the opportunity to influence, grow, and drive real innovation – in an environment where your expertise truly makes a difference every day.

About the job

We´re now helping our client who work with leading SaaS platforms like Microsoft Dynamics 365, Salesforce, HubSpot, and Tacton — always tailored to their clients' real needs. As a Dynamics 365 Developer, you'll play a central role in building smart, scalable solutions for our clients. You'll work closely with architects and functional consultants — and take ownership of key parts of the technical delivery.

Your day-to-day might include:

- Developing custom functionality in Dynamics 365 CE using C#, JavaScript, and Power Platform tools
- Building integrations using Azure Functions, Service Bus, and APIs (REST/SOAP)
- Designing and developing PCF components and enhancing the user interface
- Collaborating with cross-functional teams to translate business needs into technical solutions
- Contributing to solution design and architecture discussions
- Helping clients get the most out of the Microsoft eco system

Tech Stack You'll Work With:

- **C#** – for custom plugins and backend logic
- **JavaScript/HTML/CSS** – for interactive and responsive front-end features
- **Power Platform** – Power Apps, Power Automate, and custom connectors
- **Azure** – Functions, Key Vault, Logic Apps, Service Bus

About you

- You have 3+ years of hands-on experience with Microsoft Dynamics 365 CE/CRM
- You've worked with Power Platform (Power Automate, Canvas Apps, PCF)
- You're comfortable with Azure services, and understand how to build modern cloud-based integrations
- You're fluent in English
- You hold a relevant academic degree in IT, engineering, or similar
- Bonus: You've earned Microsoft certifications or have experience with SAFe/agile environments

About the company

They are an independent consulting and development partner with a global presence, helping businesses grow and become more efficient through modern solutions in CRM, CPQ, data, and AI. With extensive industry experience and dedicated experts, they deliver

tailored advisory and implementation services — without being tied to any specific vendor — and support their clients every step of the way, from strategy to long-term results.

We look forward to receiving your application!

Om Ed:Za

Vi är ett företag som har som mål att vara nytänkande och flexibla kring våra kunders behov av att få saker gjorda och samtidigt lösa deras utmaningar kring att hitta rätt kompetens. Detta gör vi genom att erbjuda tjänster och lösningar som levererar på specifika projekt och behov samtidigt som vi bygger unik kompetens i ett snabbt tempo. Som juniorkonsult hos oss blir du en avgörande faktor för att leverera på våra kunders behov i spännande och konkreta projekt med både möjlighet och ambition att fortsätta din karriär hos vår kund. Samtidigt får du stöd av seniora specialister som ansvarar för projektets framgång men ytterst finns där för att coacha och utveckla dig till nya höjder. Vi tror innerligt på individens eget driv men finns där hela vägen för att stötta dig.
